2011-2012 TRYOUTS

Synergy teams will be selected through a two-day tryout process that allows trainers to evaluate players in the areas of foot skills, athletic ability, fitness, and tactical understanding. Teams will be selected through a group effort of the training staff and current college players and coaches. All players who are interested in playing for Synergy must attend at least one, but preferably both tryout dates. Team placement decisions will be made public within 72 hours of the second tryout date.

Players will be placed on teams by age and ability level. Certain players will be given the opportunity to play up in age if their ability level warrants the higher level of competition or if there is no team at their particular age group. If your grade age and birth age do not match up, please specify which group you would prefer to play with at the time on your registration form.
